## SUMMARY

---

Seasoned and results-driven Full-stack developer with over 7 years of experience in software engineering, specializing in developing custom interfaces and implementing innovative technologies to enhance development efficiency. Proficient in creating solutions that prioritize accessibility, reachability, and security, with a strong commitment to deliver high-quality code.

## SKILLS

---

<b>Experienced</b>	React JS, Javascript, Redux, Typescript, ES6+, HTML, CSS, LESS, Jest, React Testing Library Node.js, RESTful API, Cypress, Git, Webpack, ESLint, Jira, GraphQL
<b>Familiar</b>	Playwright, Figma, Java, Scala, PostgreSQL, Oracle DB, Contentful(CMS), Jenkins, CI/CD, AWS
<b>Soft Skills</b>	Time Management, Team Work, Problem Solving, Decision Making, Conflict Resolution

## EXPERIENCE

---

### Senior Software Engineer

Feb 2022 - Present

LTIMindtree – Noida, India

- Improved page load times by 30% through optimization techniques for web pages, applied best practices in TypeScript, and addressed cross-browser compatibility issues.
- Led bug resolution sessions, resulting in a 25% reduction in bugs and improving overall product quality.
- Developed robust user-centric unit tests for GUI components and designed e2e test cases to mock functionality.
- Created a new website design layout to convert existing static websites to responsive websites.
- Led a team of 4 to deliver a high priority project 20% ahead of schedule.

### System Engineer

Mar 2019 - Feb 2022

Tata Consultancy Services – Noida, India

- Designed and developed at all layers (front-end and back-end) public-facing applications using React, Node, Javascript, Redux, and PostgreSQL database.
- Planned Web page development by converting mock-ups into a usable web presence.
- Contributed to layout modifications to improve functionality.

### Software Developer

Jun 2018 - Feb 2019

Skill Lotto Solutions – Gurugram, India

- Developed and evolved consumer-facing multi-channel road-map for desktop, mobile, and web applications.
- Organized and handled bugs and issues reported by users, continuously updated software to meet client needs.
- Established the foundation for the application to be launched in new states of India.

## EDUCATION

---

### Kurukshetra University

Aug 2014 - May 2018

Geeta Engineering College – Haryana, India

- Awarded with an honors degree for Bachelor's in technology, Computer Sciences.

## CERTIFICATIONS
